

AKVA Safety Ladder

Pull-out ladder if the worst should happen

Our safety ladder is mounted on the pen's walkway, to ensure that the person that has fallen into the sea easily can be rescued, regardless of the weather. The pull-out ladder is user friendly and makes it possible to get out of the water without help from others.

The rescue ladder from AKVA group, fits all types of pens and is not in the way of boats or others components placed on the pen. The ladder, which is made of robust corrosion-resistant materials has a non-slip surface and is mounted in the walkway by means of 4 x acid-proof J-bolts. It can easily be mounted and disassembled if needed.

Benefits:

- Easy to use
- The person who has fallen into the water can easily pull out the ladder and get up by himself
- Stainless steel, acid-proof steel
- Polyethylene
- 3-step ladder in corrosion-resistant Aluminium

AKVA Safety Ladder

is designed and manufactured in Norway by AKVA group.
